Amendments to the Drawings

Proposed replacement drawings are submitted herewith for Figs. 4B and 4C (which are now split into Figs. 4B1 and 4B2, 4C1 and 4C2), 6, 7C, 8A, 9B, 10A - 10C, and 12 to correct problems with margins.

In addition, the notation

DN="cn=doctors,ou=groups,o=acme"

is replaced with the notation

DN="cn=medical,ou=groups,o=acme"

in Figs. 4B1 and 4C1. That is, "doctors" is replaced with "medical". This aligns the terminology in the figures with the text on Page 46, line 10 of the specification as originally filed.

No new matter is introduced with these proposed replacement drawings, all of which are supported by the specification and drawings as originally filed.

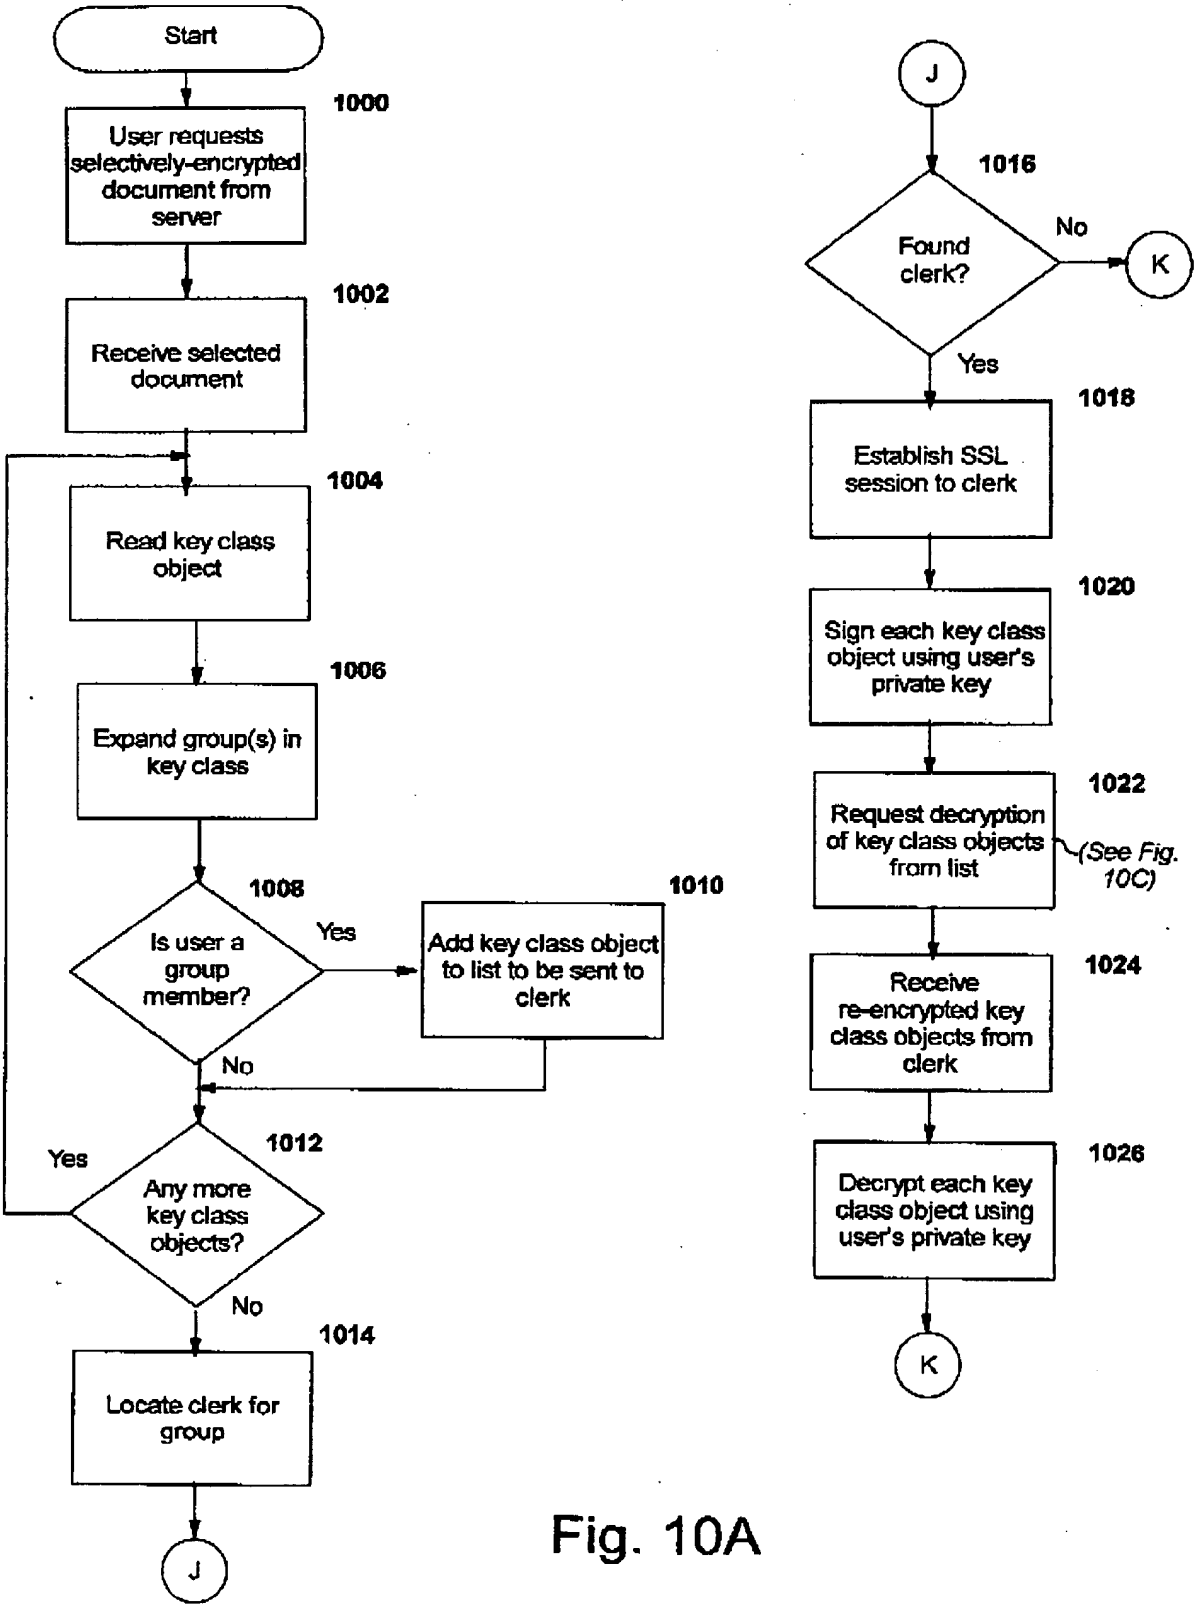
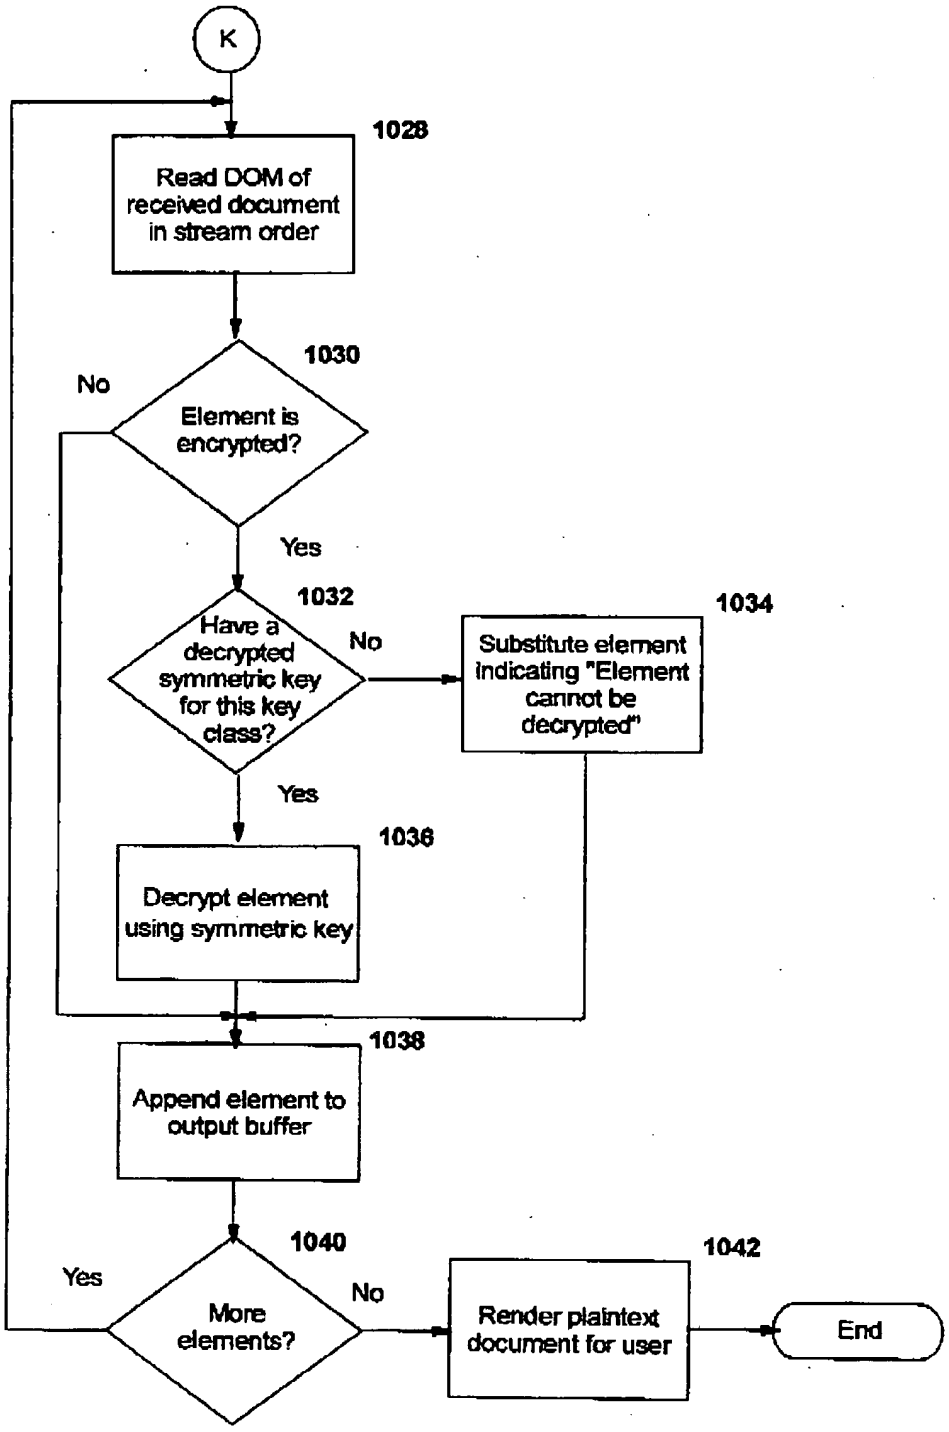
User picks selectively-encrypted document from HTTPS menu
940
I
Retrieve selected document
942
H
Retrieve document element
944
Element encrypted?
946
No
G
Yes
Expand group(s) in key class
948
Is user a group member?
950
No
Yes
Locate clerk for group
960
Found clerk?
962
No
Yes
F
Substitute element indicating "Element cannot be decrypted"
964
F
Establish SSL session to clerk
972
Request decryption of KeyObject (Proxy's Certificate, user's DN)
974
Clerk asks if both user and proxy are in Group?
976
No
Yes
Decrypt KeyObject using Group's private key
978
Success?
980
No
Yes
Decrypt element using symmetric key
982
G
Append element to output buffer
966
More elements?
968
H
Yes
No
Pass plaintext document to user on SSL session
970
End

Fig. 9B



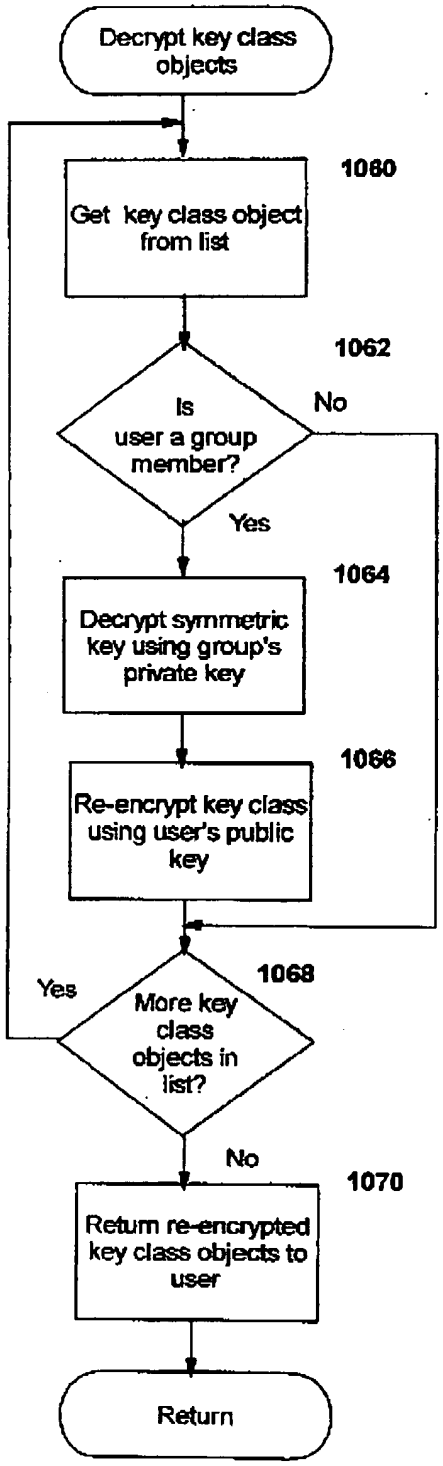
Start
1000
User requests selectively-encrypted document from server
1002
Receive selected document
1004
Read key class object
1006
Expand group(s) in key class
1008
Is user a group member?
Yes
1010
Add key class object to list to be sent to clerk
No
1012
Any more key class objects?
Yes
No
1014
Locate clerk for group
J
J
1016
Found clerk?
No
K
Yes
1018
Establish SSL session to clerk
1020
Sign each key class object using user's private key
1022
Request decryption of key class objects from list
(See Fig. 10C)
1024
Receive re-encrypted key class objects from clerk
1026
Decrypt each key class object using user's private key
K

Fig. 10A



K
1028
Read DOM of received document in stream order
1030
No
Element is encrypted?
Yes
1032
Have a decrypted symmetric key for this key class?
No
1034
Substitute element indicating "Element cannot be decrypted"
Yes
1036
Decrypt element using symmetric key
1038
Append element to output buffer
1040
Yes
More elements?
No
1042
Render plaintext document for user
End

Fig. 10B



Decrypt key class objects
1060
Get key class object from list
1062
Is user a group member?
No
Yes
1064
Decrypt symmetric key using group's private key
1066
Re-encrypt key class using user's public key
1068
Yes
More key class objects in list?
No
1070
Return re-encrypted key class objects to user
Return
